To complement the upcoming "A Year of Festivals", this vibrant wall calendar celebrates the fantastic diversity of the world's festivals.

A Different festival from round the world, each month features a large image and informative text. The celebrations range from music (England's Glastonbury) to culture (the Venetian masked festival) to quirky (Spain's tomato-throwing La Tomatina). Lush, colorful and worthy of decorating any wall, the calendar has plenty of space to record important daily reminders and your own special celebrations.
